

The new way of meeting

A clear philosophy

More effective meetings with the help of modern technology - that is the idea behind Quarta. These smart meeting tables connects people, regardless of whether they are sitting at the same table or on the other side of the world. Quarta not only ensures increased interaction in meetings, but also optimum comfort and delivers improved meeting efficiency.

Quarta. Nice to meet!

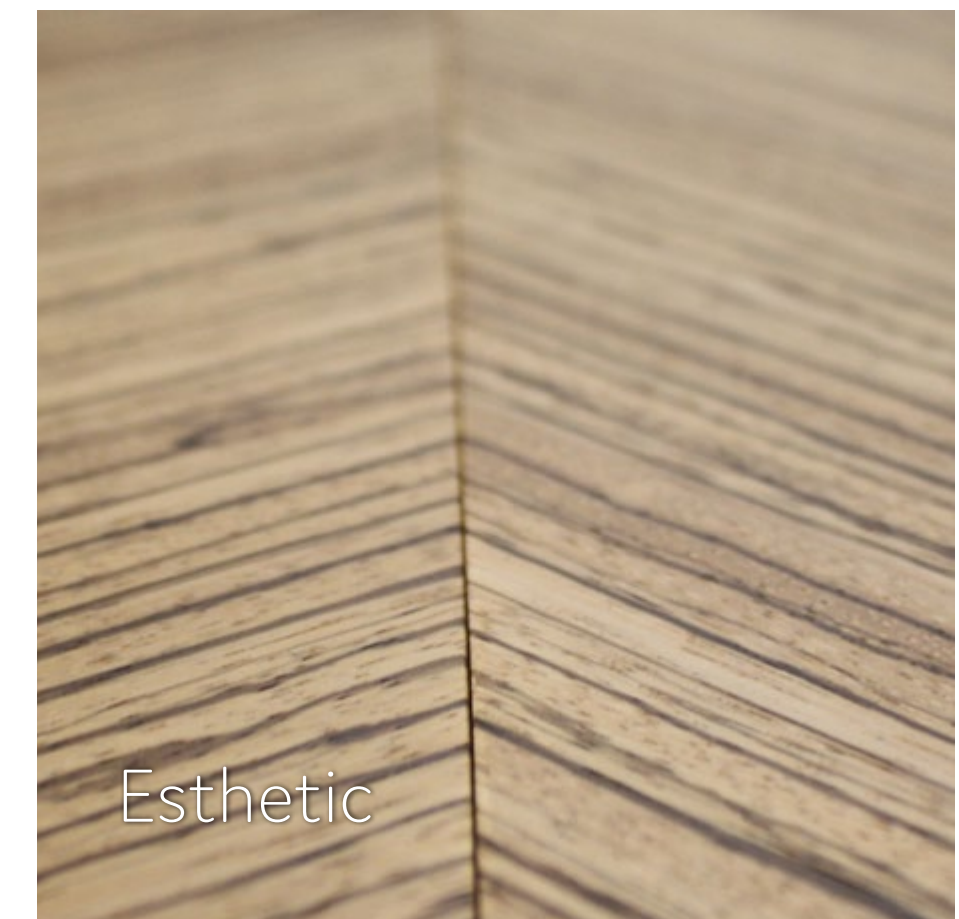

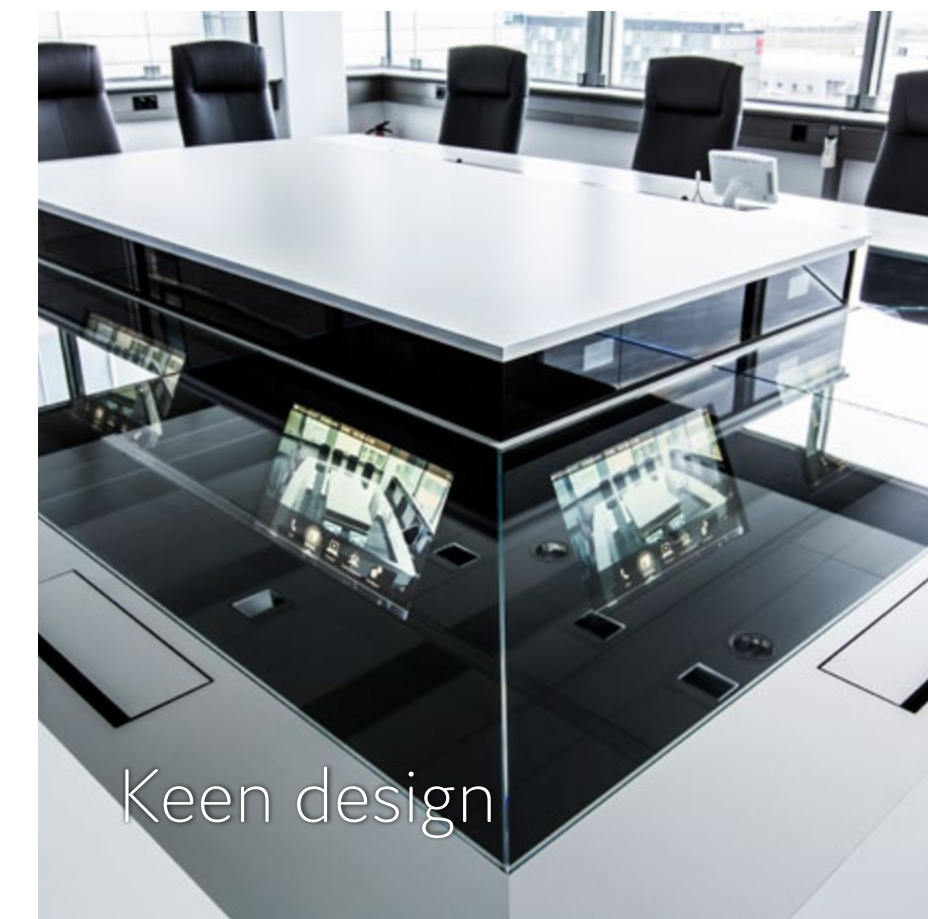

Quarta, a unique meeting concept

For boardrooms and luxury meeting rooms

Quarta is a full range of next generation meeting tables that offers businesses a unique and innovative solution thanks to the combination of fully integrated audiovisual facilities and optimum ease of use. With a smart balance between design and functionality, Quarta adds a new dimension to the modern meeting environment.

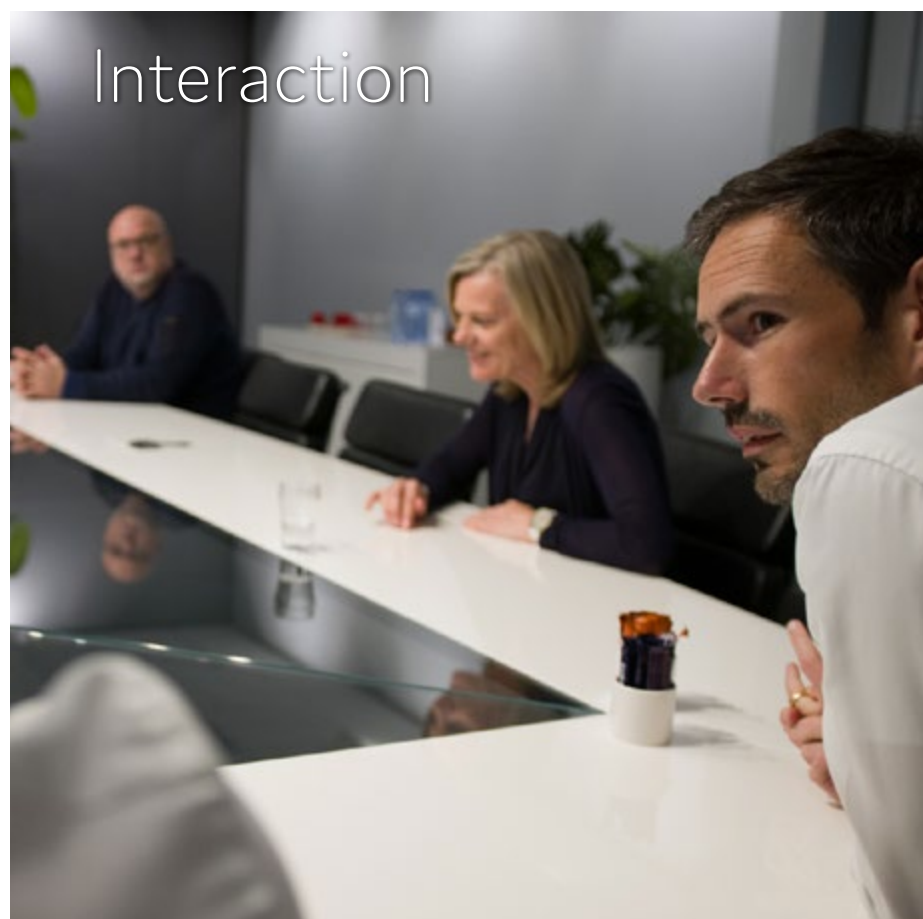

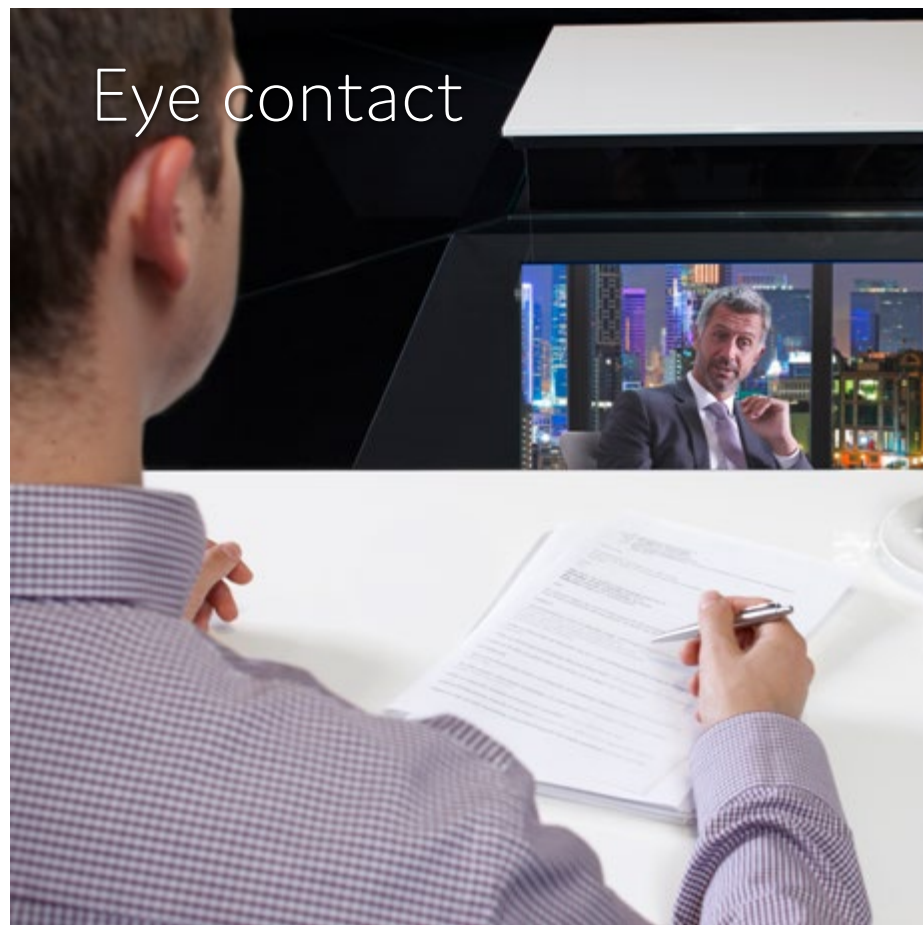

Quarta meeting tables have acquired a place in the boardrooms and meeting rooms of numerous leading companies. Increased meeting intensity goes hand in hand with time savings.

Improved meeting dynamics

After height, width and length, the factor of time is regarded as the fourth dimension. It is no accident that the name Quarta refers to it. In the heart of the table are flat screens, recessed under clear-vision toughened glass which makes sharing presentations and documents easy.

This arrangement also allows participants in the meeting to maintain eye contact with each other because they no longer have to turn to face a single central screen on a wall. This ensures increased interaction and improves the meeting dynamics and saves time.

Beautiful and smart

Videoconferencing fully integrated

Quarta makes use of high-end solutions for videoconferencing. Integrated cameras combined with an advanced videoconferencing system ensure razor-sharp images and crystal-clear sound. Full integration of Microsoft Teams into the Quarta table is also available. Start your meeting with One-Touch-Join.

You choose convenience, efficiency and reduced environmental impact.

Numerous possibilities

The Quarta range consists of a large number of models, from the Quarta-8-seats to the Quarta-26-seats. The durable and luxuriously finished tables can be equipped with a tabletop of your choice. Every Quarta table is equipped with flat screens recessed in the centre console, a sound system and connection points for laptops. But Quarta goes further, because the tables can also be equipped with HD cameras for video conferencing, which rise from the centre of the table at the touch of a button. Full Microsoft Teams integration is also possible.

Quarta-22-seats

Custom: Quarta-26-seats and above

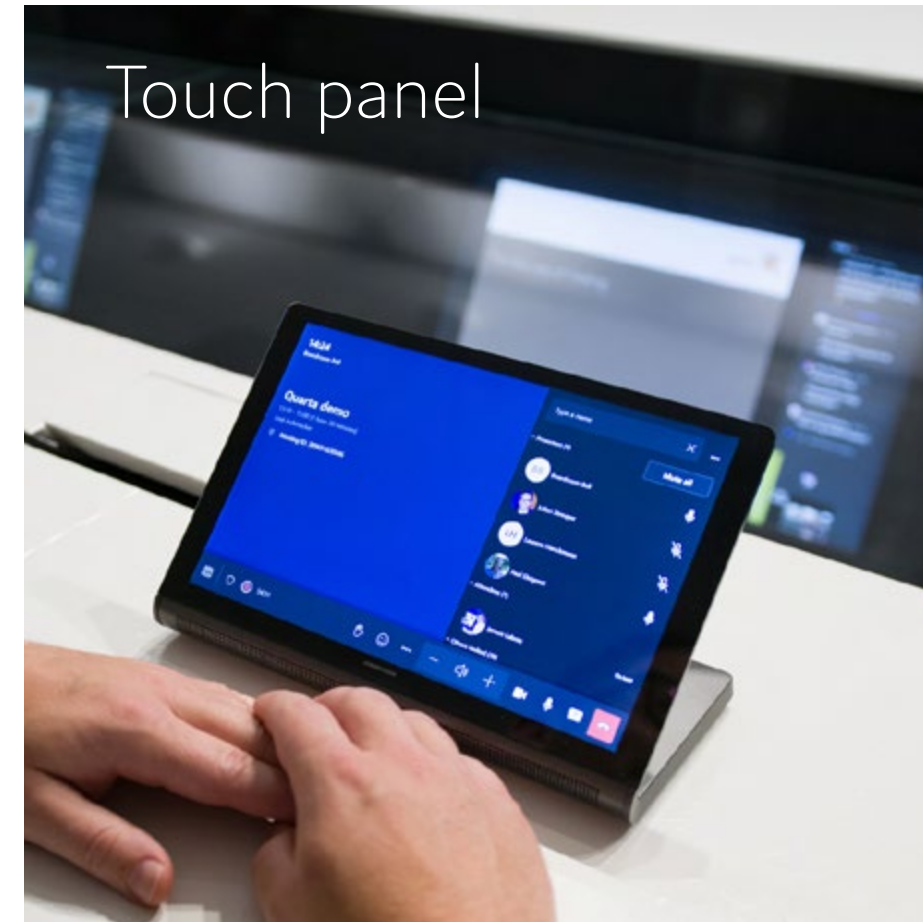

Boardrooms are not all the same. In partnership with you, we will create the Quarta which ideally matches your wishes, the number of seats and other requirements.

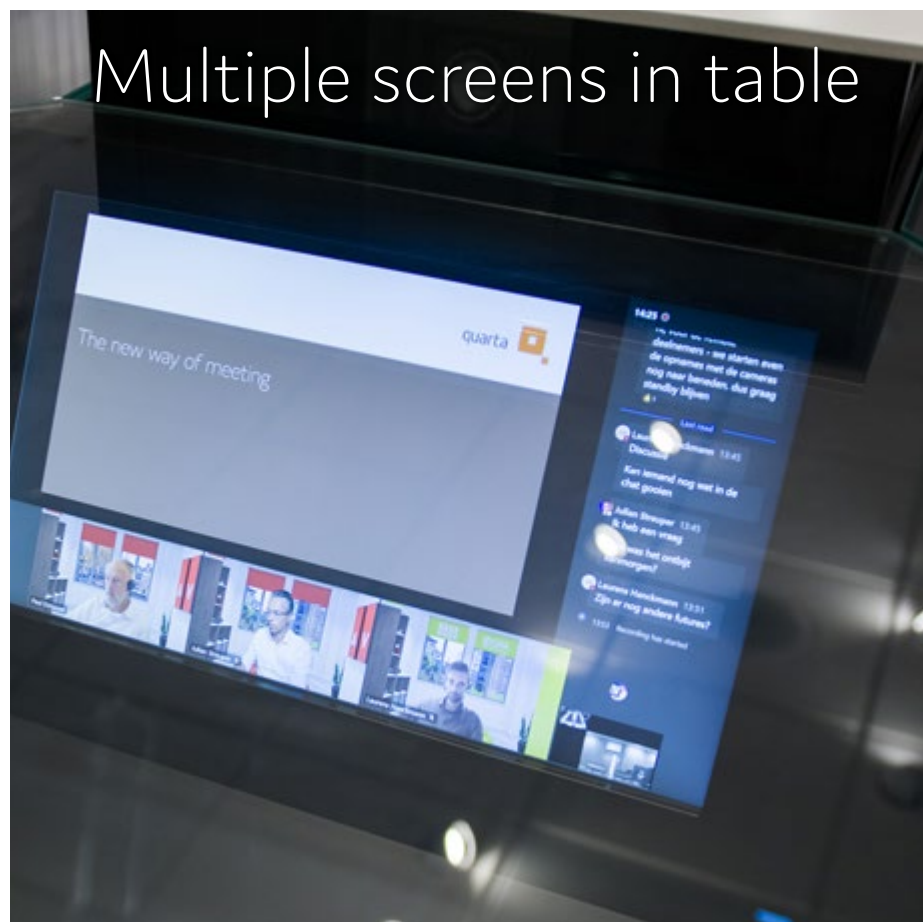

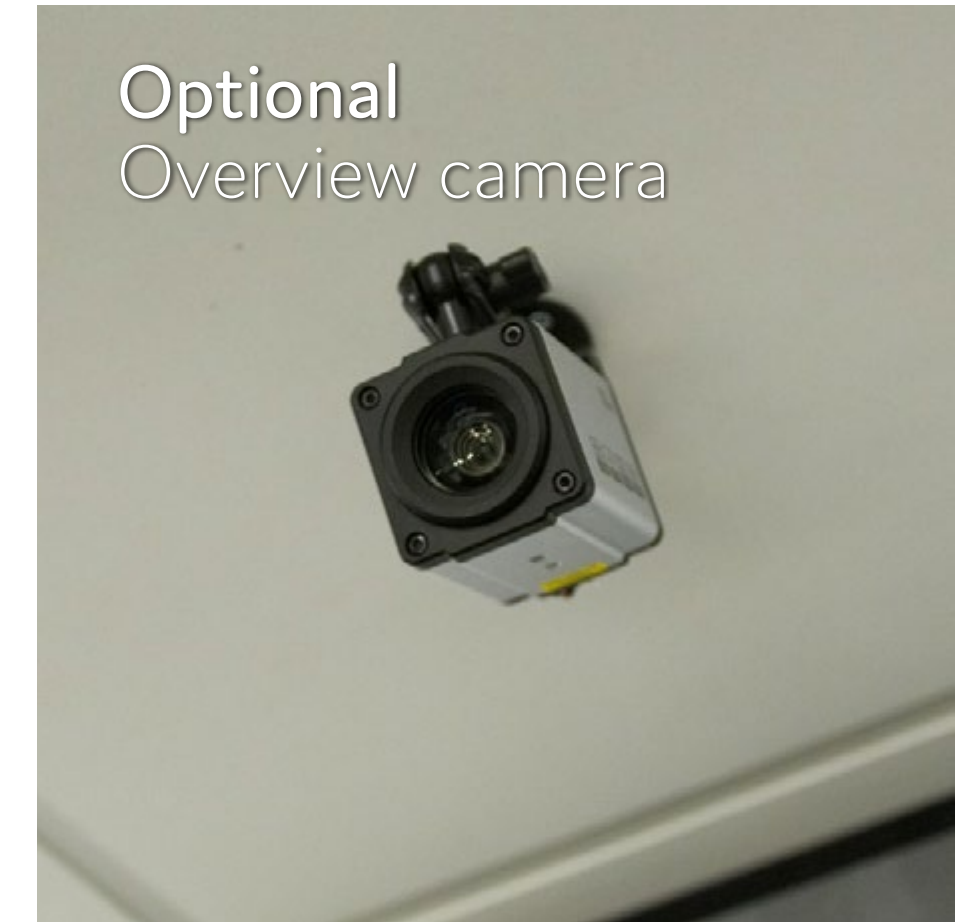

Features

Videoconferencing and audio system are cleverly integrated (except Quarta Compact). High definition cameras rise up from the console in the heart of the table. Full Microsoft Teams integration is also possible. There are several layout options for how camera images and shared content are displayed.

All meeting room functions can be controlled using the intuitive touch screen. Including screens, audio level, lighting and blinds.

The placement of multiple screens, recessed in the centre console of the table, guarantees a comfortable sitting posture and an optimum viewing angle. It improves eye contact and interaction.

All cables are neatly concealed in the heart of the table. There are multiple connection points for laptops.

International Deliveries

Quarta is a full service concept, with special care treatment. We are able to take care of delivery, installation and service of Quarta meeting tables also for your foreign locations.
